# Kids pack includes:

colouring

DIY gas mask

## How to make a model gas mask

**Materials** - You will need the following to make your mask:

- black or olive green cardstock (cardboard) - you will need one piece A3 size
- cellophane (any colour)
- bubble wrap
- hot or shirring elastic
- sticky tape
- scissors

### Step 1: Mask outline

- Download the mask outline and print it.
- Cut around the mask outline and cut out the mouth/nose hole and eye holes.
- Trace the outline, mouth/nose hole and eye holes onto cardstock using a pencil.
- Cut out mask. (See picture opposite.)

### Step 2: Cellophane for eye holes

- Cut two circles of cellophane each with a radius of 4.75cm.
- Sticky tape cellophane over the back of each eye hole. (See picture opposite.)

### Step 3: Cardstock for nose filter

- Cut a rectangular piece of cardstock 30cm long by 5.5cm wide. (See picture opposite.)
- Make into a cylinder, overlapping by approximately 3cm. (See picture opposite.)
- Sticky tape together. (See picture opposite.) The nose piece should fit the mouth/nose hole, not be bigger or smaller than it.

### Step 4: Completing the filter and attaching it to the mask

- Cut two circles of bubblewrap each with a radius of 5.25cm.
- Put small pieces of sticky tape around the edge

- word search
- quizzes
- Anderson Shelter
- fun facts
- identity card
